

Lab: Generative AI for Storytelling

Estimated time needed: 30 minutes

Learning objectives

After completing this lab, you will be able to:

- Sign up in Zoho Analytics and upload a dataset
- Generate a report by prompting Zia AI

Welcome to the lab on **Generative AI for Storytelling!**

Overview

In this lab, you will learn how to use Generative AI to prepare a report for your data using charts and insights.

To begin, you need to create your login on the [Zoho Analytics website](https://www.zoho.com/analytics/) page.

Task 1: Sign up in Zoho Analytics

Step 1: Click www.zoho.com/analytics/

Step 2: Fill in the required information and click the SIGN UP FOR FREE button.

Note: You can sign up for Zoho Analytics using various options such as Google, LinkedIn, or a Zoho email account. The platform offers a 15-day free trial without requiring any credit card details.

The screenshot shows the Zoho Analytics website's sign-up page. The browser address bar displays 'zoho.com/analytics/'. The page features a navigation bar with links like DataPrep, CRM, Creator, Books, RPA, Inventory, and All Products. A banner below the navigation bar states 'Zoho Analytics has been recognized in the 2025 Gartner® Magic Quadrant™ for ABI Platforms. READ MORE'. The main heading reads 'Go from data to insights in minutes'. Below this, there are three checkmarks: 'Connect Data', 'Visually Analyze', and 'Get Actionable Insights'. On the right side, there is a sign-up form with fields for 'Work Email', 'Password', and 'Phone Number'. The form also includes a checkbox for 'I agree to the Terms of Service and Privacy Policy' and a prominent red 'SIGN UP FOR FREE' button. At the bottom of the form, it says 'or sign in using' followed by Google and LinkedIn icons.

Step 3: On the Welcome screen, click **Get Started**.

Task 2: Upload a dataset

Step 1: To download the dataset, press the **Ctrl** key on your keyboard and then, click [here](#).

Step 2: On your Zoho Analytics homepage, select **Local Drive**.

Step 3: Enter the **Workspace Name** and click **Choose file**.

Step 1 of 2: Import Your Data
Import data from Excel, CSV, HTML, XML, JSON, Statistical & MS Access files

Workspace Name*

Description

File Type

Data Location ☒ Local Drive ☐ Pasted Data ☐ FTP

File* No file Selected [Try Sample](#)

(Supported file formats: .CSV, .TSV and other text files)

Note:

- For other file formats, Choose the corresponding 'File Type' option above.
- For large size CSV or TSV or Text file, we recommend to zip it and upload.
- Zippped CSV, TSV or Text file should contain only one file in it.

[Cancel](#) [Next](#)

General Info:

Data size should be less than **100 MB** and the number of rows should be less than **1 Million**

To Upload more, use our [Databridge](#), provided your data is in CSV or TSV text file formats

Contact support@zohoanalytics.com for any assistance

Step 4: Select and upload the electronics_dataset.csv file. Now, click **Next**.

Step 1 of 2: Import Your Data
Import data from Excel, CSV, HTML, XML, JSON, Statistical & MS Access files

* Click on the header cell to edit the column names

Task 3: Using Zia AI to explore data and generate reports

Step 1: Go to the left corner, click **More** and select **Ask Zia** option.

Step 2: Enter the following prompts one by one in the Zia AI prompt bar and generate all the charts through Zia.

Prompt 1:

- 1
1. Show a line chart of total revenue grouped by month using the Order Date column.

Copied!Wrap Toggled!

Sample output

You can click **Zia insights** icon on the top-right corner to see the detailed insights of the generated chart.

Sample output

Prompt 2:

1. 1

1. Create a bar chart of the top 10 products by total revenue.

Copied!Wrap Toggled!

Sample output

Prompt 3:

1. 1

1. Create a pie chart showing each product's contribution to total revenue.

Copied!Wrap Toggled!

Sample output

Prompt 4:

1. 1

1. Create a pivot table with product name, total quantity ordered, and total revenue.

Copied!Wrap Toggled!

Sample output

Step 3: After generating all charts go to **Dashboard** and select **Create new Dashboard**

Step 4: Drag and drop the dataset in the report section.

Step 5: Click **Save**, enter the dashboard name, and click **Ok** to save the dashboard.

Task 4: Finalizing the charts to be used in the report

Step 1: Go back to Zia, save, and add the charts to the dashboard one by one that you created earlier.

Repeat the same step to add the other charts to the dashboard.

Step 2: Once the charts are added, go to the dashboard to find the charts that you have added.

Task 5: Saving and sharing the report

Step 1: Go to the **View Mode**.

Step 2: To export the dashboard, click **Export** and select the appropriate option to download the dashboard.

Export as HTML
Layout as in Dashboard - PDF
Each Report in a New Page - PDF
Export as PPT
Export as Template
To other Workspaces

Product	Total Quantity Ordered
1 Chair	47
2 Desk	62
3 External Hard Drive	59
4 Headphones	38
5 Keyboard	75
6 Laptop	45
7 Monitor	65
8 Mouse	26
9 Printer	32
10 Tablet	74
Grand Total:	523

Step 3: You can also share it with your colleagues and peers. To do so, click **Share** and then select the option as per your convenience.
